

# Oculoheel®

*for a clearer view...*

**Eyedrops**  
(Sterile vials)

Homeopathic Preparation

Conjunctivitis and dryness are the most prevalent eye disorders. Their incidence continues to grow due to increasing air pollution and ozone levels, computer-based work, air-conditioning, contact lenses use and allergies. **Oculoheel®** is a homeopathic combination preparation that has been scientifically proven for its efficacy in treating conjunctivitis and other ocular problems.

**MAIN INDICATIONS:** **Oculoheel®** effectively alleviates the following ocular symptoms: inflammation and irritation, burning sensation, watery eyes, itching, redness, gritty sensation, sensitivity to light, conjunctival edema, stabbing pain, retro-ocular pain.

If symptoms persist, consult a health professional.

**COMPOSITION:** 1 vial (0.45 ml) contains: Euphrasia officinalis D5 0.1107 ml; Cochlearia officinalis D5 0.1107 ml; Pilocarpus D5 0.1107 ml; Echinacea angustifolia D5 0.1107 ml.

Does not contain any preservatives.

**DIRECTIONS: Adults:** In general, put a few drops into the affected eye 3 times per day or as recommended by a health professional. In acute cases, the dosage may be increased to 1 drop into the affected eye every 15 minutes for a maximum of 3 hours. **Children:** half of the adult dosage.

**Oculoheel®** is suitable for wearers of contact lenses.

**DIRECTION FOR USE:**

1. Separate the vial by turning and pulling the strip.
2. Tear off the closure cap.
3. Tilt your head backward, hold the vial vertically and pointing downward, allow drops to drip into the conjunctival sac of the eye by slightly applying pressure onto the vial.

**SIDE EFFECTS:** None known

**CONTRAINDICATIONS:** None known.

**INTERACTIONS WITH OTHER MEDICATION:** Incompatibilities of **Oculoheel®** with other co-administered drugs are not known.

**NOTE:** The vials may only be used once. Discard vials after each use, even if they may still contain some liquid in order to avoid contamination. The content of the vial is sufficient for one application i.e. for dripping once into the left and/or right eye as recommended by a health professional. Do not open the vial until just before application.

Keep out of children's reach.

**PACKING SIZES:** A box contains 15 vials of 0.45 ml each.
