

Breathe easier with

EUPHORBIIUM Compositum®

Nasal Spray

EUPHORBIIUM compositum® is available as a nasal spray, oral drops, and oral vial solution. **EUPHORBIIUM compositum®** is a safe, versatile medication for all ages.

Physicians have been recommending **EUPHORBIIUM compositum®** for over 30 years as a safe, effective and prescription-free alternative to habit-forming nasal sprays. Developed by renowned German physician/researcher Dr. H.H. Reckeweg, **EUPHORBIIUM compositum®** is widely used all over the world.

- Over 40 years of worldwide therapeutic use
- Non habit-forming or addictive
- Safe and effective for the whole family (including children, pregnant and breastfeeding women)
- Very well tolerated
- Safe alternative to conventional nasal sprays
- Free from side effects even with long-term use

EUPHORBIIUM compositum® is the only natural nasal spray to possess a proven anti-viral action.

EUPHORBIIUM compositum® for the safe and natural relief of:

- Cold & flu nasal symptoms
- Sinus congestion
- Chronic nasal drip
- Dry nasal membranes
- Rhinitis & sinusitis

OLIGOCURE

OLIGOCURE®

OLIGOCURE'S RECOMMENDED USE

1. Cure (short-term treatment) to relieve symptoms of fatigue related to overwork
2. Cure (short-term treatment) that can be taken prior to Copper-Gold-Silver Oligosol® to relieve symptoms of asthenia (daily fatigue) of the elderly.

Dosage/Duration of cure

1 double-dose in the morning for 24 days (2 bottles).

Mode of action of trace elements

Trace elements are taken in small doses. As a result, there is never any overloading or build-up of metals in the body. Some trace elements have a slightly metallic taste - the price to pay for effectiveness!

How should trace elements be taken?

- On an empty stomach, either 15 minutes before or two hours after a meal.
- Keep in the mouth 1-2 minutes before swallowing.

LABCATAL,

The Reference for Trace Elements

Engystol®

The POWER to Activate your Immune System

Fight off:

- **Viral infections**

Susceptibility to infections depends upon the status of the immune system. The goal of treatment with homeopathic combination preparations such as **ENGYSTOL** is to activate and support the endogenous defense mechanisms, i.e. to strengthen the infection defenses.

ENGYSTOL stimulates the phagocytic activity of human granulocytes up to 30% above control cultures. This effect was further enhanced to 41% by applying a 1:1 mixture of **ENGYSTOL** and **Gripp-Heel**. The effectiveness of **ENGYSTOL** is probably not due to a direct modulation of granulocytes. An indirect effect mediated by simultaneous activation of T-lymphocytes and cytokines (known as killer cells) released from other immunocompetent cells appears more likely.

ENGYSTOL is available in ampoule form as well as tablets. Both dosage forms exhibit excellent tolerability and efficacy.

Gripp-Heel®

The POWER to FIGHT Cold & Flu...

Fight off:

- **Common cold and flu**
- **Infections with fever**

GRIPP-HEEL strengthens the immune system. **Gripp-Heel** stimulates phagocytic activity of human granulocyte preparations up to 30% more than placebo. This results in less severe symptoms and shorter recovery time.

GRIPP-HEEL was proven as good as acetylsalicylic acid. 3 tablets 3 times daily of **Gripp-Heel** produced the same improvement after 4 days of treatment as 1 tablet (500 mg) 3 times daily of acetylsalicylic acid.

GRIPP-HEEL improves symptoms within 3 days. Patients treated with **Gripp-Heel** exhibited initial improvement of symptoms within 3 days in 65%-70% of all cases.

GRIPP-HEEL works prophylactically. **Gripp-Heel** increases antibody response to components of influenza viruses; up to 15.4-fold for neuraminidase and up to 2.1-fold for hemagglutinin.

GRIPP-HEEL has an excellent safety profile. The innocuousness of **Gripp-Heel** has been established by over 40 years of worldwide therapeutic use, clinical studies and drug monitoring trials. Over 1 million packages of **Gripp-Heel** have been sold in the last 5 years, yet no side effects were reported during this period.

CapiVit™

For Hair
& Nails

Health &
Vitality

COMPOSITION (per capsule)

- Pantothenic acid (calcium pantothenate) 100 mg
- Biotin 250 mcg
- Zinc citrate 25 mg
- Nettle (*Urtica dioica*) leaf powder 30 mg
- Non-medicinal ingredients: microcrystalline cellulose, potato starch, vegetable magnesium stearate, vegetable capsule shell.

CapiVit does not contain colouring agents nor Genetically Modified Organisms (GMO) and is completely vegetarian.

SUGGESTED USE

2 capsules per day with meals, one in the morning and one in the evening for a minimum of 2 months.

Due mainly to its zinc content, CapiVit is not recommended for children under 12 years of age.
